RE: Pre-seizure notice for boat with USCG Documentation # 587057

Dear Mr. Abers,

The United States of America department of Homeland Security United States Coast Guard National Vessel Documentation Center indicates that you are the current owner of 1977 Fiberglass Sailing vessel that is 27.4 ft. in length, with the USCG Documentation # 587057. On or around September 1, 2024, this boat was moored at the Port of Astoria West Basin Slip A 43 without payment for moorage.

Pursuant to state law, ORS 830.908, this boat is declared an abandoned vessel for the reason of no payment for moorage slip.

This boat **WILL BE SEIZED** under the authority of ORS 830.911 by the Port of Astoria Marina Office, for being an abandoned vessel if the vessel moorage account is not paid in full by the seizure date and time posted in this letter.

Seizure date and time: December 19, 2024, at 4:00 pm.

If the boat is seized, you, as the owner of this boat, are liable for the salvage, towing, storage, and disposal costs of this vessel. If you do not pay the costs of salvage, towing and storage costs, within 30 days of the seizure, title to this vessel will vest with the Port of Astoria Marina Office and the boat will be sold or destroyed. You will remain liable for any outstanding salvage, towing, storage, and disposal costs.

You have until the seizure date and time listed above to request a hearing to contest the validity of the proposed seizure. A request for hearing must be in writing, directed to the Enforcement Agency listed above, and must indicate if you contend that the vessel is not abandoned or derelict, or indicate such other specific grounds on which seizure of the vessel is challenged.

You also may be cited for failure to remove an abandoned vessel if you fail to move the vessel to a place where the vessel can be lawfully kept by the seizure date and time above.

If you have any questions, please direct them to Janice Burk Marina Manager 503-325-8279
